

INSTRUCTIONS

Part #		Pieces
1		2
2		4
3		2
4		1
5		2
6		2
7		1

STEP 1

Mount #4 to frame with Part #6.
Important: Part #4 to be parallel to ground.
This may require Part #4 to be attached to underside of front forks.
Adjust front slide bar horizontally to the left to allow room for directional chute crank.

STEP 2

Attach part #3 to part #4 with part #5.

STEP 3

Slide parts #2 into parts #3.

STEP 4

Fit parts #1 and secure with part #7 and fit to frame.

STEP 5

Slide on Cover and secure at velcro points.

May Require further tightening after initial use.
